FORM FILLING INSTRUCTIONS

The dog, whose keeper changes and the date of the change

This section is for entering the basic details of the dog whose change of keeper is being reported.

You must also indicate the date on which the dog is transferred from the previous keeper to the new keeper.

Information of the dog's previous keeper

Enter the details of the previous keeper who is already registered in the dog registry.

If the previous keeper has initiated the change of keeper via the electronic service, and the new keeper is unable to use the electronic service for any reason, they may complete this form and include the certificate number (12 numbers) received from the previous keeper in the designated field. In this case, the previous keeper's signature may not be required on the form.

Please provide at least one contact detail so our customer service can reach the previous keeper if any issues arise during the change of keeper process.

Information of the dog's new keeper

Enter the details of the new keeper of the dog. The personal identity code or business ID of the keeper is used as the unique identifier.

For invoicing purposes, the type of business ID must also be specified. Private entrepreneurs must also provide the personal identity code of the responsible person.

Do not submit any information subject to a non-disclosure for personal safety. However, please provide your contact address or e-invoice address for invoicing the registration fee.

Providing contact details (phone number, email address) is not mandatory, but in the event the dog goes missing, the fastest way to reach you is if your contact information is up to date in the dog registry.

Signatures

Both parties must sign the form before submitting it to the dog registry's customer service.

If one party is unable to sign, an authorized person may sign on their behalf. The power of attorney must be submitted as an attachment to this form.
