

Instructions on the use of secure e-mail for Finnish Food Authority laboratory customers

Instructions on the use of secure e-mail for Finnish Food Authority laboratory customers

The Finnish Food Authority's laboratory will send the results of the samples it has examined by secure e-mail from 1 January 2021. The use of the secure e-mail will not require the installation of any software to your terminal device. These instructions provide more detailed information on how to use secure e-mail (secure message). The Secure Messaging Service is produced by the Government ICT Centre Valtori.

Receiving and saving a secure e-mail message

1. You will receive a notification on the arrival of a secure e-mail message to your e-mail inbox. The notification will contain a link to the actual message that you can open by clicking the "Open Message" link. In order to read the message, you will need an internet connection and a www browser. The message can only be read in a browser that allows cookies.

VYVI-TURVA

Salassa pidettävä / Sekretessbelagt / Classified

Aihe / Ämne / Subject

TESTIViesti: TUTKIMUSTODISTUS / ANALYSCERTIFIKAT / CERTIFICATE OF ANALYSIS / E20200513-001 / 2020-001334

Avaa viesti / Open message / Öppna meddelandet

Olet saanut salassa pidettävän sähköpostiviestin. Viesti avataan ja siihen voidaan vastata yläpuolella olevasta linkistä. Yhteys on suojattu SSL-salauksella. Turvallisuussyistä viestin lukemista on rajoitettu ja se voidaan lukea korkeintaan 30 päivän ajan.

Du har fått ett sekretessbelagt meddelande. Meddelandet kan öppnas och svaras på från länken ovanför. Förbindelsen är skyddad med SSL-kryptering. Av säkerhetsskäl är läsningen begränsad och meddelandet kan läsas i högst 30 dagar.

You have received a classified message. Message can be opened and replied to from the link above. Connection is protected with SSL encryption. Due to security reasons reading of the message is limited and can be read for 30 days at most.

2. After clicking on the "Open Message" link, you will be notified of the collection of your personal data. Click the "Continue" button to accept the collection of personal data and to read the message. You will not need to sign into the service separately to read the message.

3. **Save the message and its attachments to your device as soon as you have opened the secure e-mail message.** If the message contains an attachment, its file name will be listed on the "Attachments" line. To open and save an attachment, click the "Download" icon to the right of the attachment name. If you want to save the message and its attachments, you can do so by clicking the lower "Save" icon. The drop-down menu will allow you to select different saving options. After saving, the message will no longer be in encrypted format, so please ensure that the information is kept confidential even after saving.

Instructions on the use of secure e-mail for Finnish Food Authority laboratory customers

- When you end a session by clicking "Logout" in the upper-right corner, the service will provide options for reopening the secure message. Opening of the message can be restricted in accordance with the cookie data of the browser in which the message was opened for the first time (this will require that cookies are allowed). **If you need to reopen the message later on using another browser or terminal device, or if more than one person needs to be able to open the message, for example from a joint e-mail account, you must use a password to lock the message.**

Confirm logout

Reopening of message requires identification.
Choose a method of identification of the following:

Cookie: A cookie is saved to your browser and while opening the message you will be automatically identified with it. Message can be opened with the same browser.

Password: Define your own password that is required to reopen the message. Message can also be opened with another browser.

Password

Confirm password

Password must include:

- at least 6 characters
- lower-case letters
- upper-case letters
- numbers

© 1999 - 2020 [Deltagon](#) All rights reserved.

- If you locked the message with a password and later want to reopen the message, click the link you received to the message, and the service will ask you to enter the password. If you enter the password incorrectly enough times, the message will be locked. If this happens, contact the message sender and ask that they resend the message.
- The message will be stored on a server for a period of 30 days, after which it will be deleted. **You must download and save the message and its attachments for later use.**
- If you use a public computer, be sure to clear the browser's cache and history before closing the browser.
