**Part II: Identification of the commodities**

#	II.1 Description of commodity	II.2 Species (scientific name)	II.3 Nature of commodity	II.4 Treatment type / Storage temp.	II.5 Approval number of manufacturing plant
1					

#	II.6 Number of packages	II.7 Net weight	II.8 Harvesting date (dd/mm/yy)	II.9 Production date (dd/mm/yy)	II.10 Best before (dd/mm/yy)	II.11 Lot No.
1						

**Total number of packages:** \_\_\_\_\_

**Total net weight (kg):** \_\_\_\_\_

The above mentioned commodities are certified for **human consumption** as:

**Non Ready to eat**

**Ready to eat**

Shipment number/s (as indicated on the Hebrew labels): \_\_\_\_\_

**Official stamp (English)**

Remarks/Other: \_\_\_\_\_

**Part III: Public and animal health attestation**

**III.1** I, the undersigned official veterinarian, declare that I am aware of the relevant provisions of Regulations (EC) No 178/2002, (EC) No 852/2004, (EC) No 853/2004 and (EC) No 625/2017 and certify that the fishery products described above were produced in accordance with those requirements, in particular that they:

- come from (an) establishment(s) implementing a programme based on the **HACCP principles** in accordance with Regulation (EC) No **852/2004**
- have been caught and handled on board vessels, landed, handled and where appropriate prepared, processed, frozen and thawed hygienically in compliance with the requirements laid down in Section VIII, Chapters I to IV of Annex III to Regulation (EC) No **853/2004**
- satisfy the health standards laid down in Section VIII, Chapter V of Annex III to Regulation (EC) No 853/2004 and the criteria laid down in Regulation (EC) No **2073/2005** on microbiological criteria for foodstuffs
- have been packaged, stored and transported in compliance with Section VIII, Chapters VI to VIII of Annex III to Regulation (EC) No **853/2004**
- have been marked in accordance with Section I of Annex II to Regulation (EC) No **853/2004**
- the guarantees covering live animals and products thereof, if from aquaculture origin, provided by the residue plans submitted in accordance with Regulation (EU) **2022/1644**, and regulation (EU) **2022/1646** are fulfilled.
- have satisfactorily undergone the official controls laid down in Regulation (EC) No **2019/627** and in particular in Titles V and VI of this regulation.

**III.2 Animal health attestation for fish and crustaceans of aquaculture origin** <sup>(2)(4)</sup>

I, the undersigned official veterinarian, hereby certify that the aquaculture animals or products thereof referred to in Part I of this certificate:

**III.2.1** Requirements for susceptible species to Epizootic ulcerative syndrome (EUS), Epizootic hematopoietic necrosis (EHN), Taura syndrome and Yellow head disease<sup>(3)(4)</sup>

Originate from a country/territory, zone or compartment declared free from <sup>(4)</sup>[EUS] <sup>(4)</sup>[EHN] <sup>(4)</sup>[Taura syndrome] <sup>(4)</sup>[Yellowhead disease] in accordance with Chapter VII of Directive 2006/88/EC or the relevant WOA Standard by the competent authority <sup>(5)</sup>

- (i) They originate from an establishment, which is not subject to national restriction measures for animal health reasons or because of the occurrence of abnormal mortalities with an undetermined cause, including the relevant listed diseases referred to in Annex I to Commission Delegated Regulation (EU) 2020/692 and emerging diseases.
- (ii) They have been obtained from animals which were not intended to be killed under a national programme for the eradication of diseases, including the relevant listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 and emerging diseases.
- (iii) All introduction of species susceptible to the relevant diseases come from an area or compartment declared free of the diseases.
- (iv) Species susceptible to the relevant diseases are not vaccinated against the relevant diseases.

**III.2.2.** Requirements for species susceptible to Viral hemorrhagic septicemia (VHS), Infectious hematopoietic necrosis (IHN), Infectious salmon anemia (ISA), Koi herpes virus (KHV) and White spot disease <sup>(3)</sup> <sup>(4)</sup>

Originate from a country/territory, zone or compartment declared free from <sup>(4)</sup>[VHS] <sup>(4)</sup>[IHN] <sup>(4)</sup>[ISA] <sup>(4)</sup>[KHV] <sup>(4)</sup>[White spot disease] in accordance with Chapter VII of Directive 2006/88/EC or the relevant WOA Standard by the competent authority <sup>(6)</sup>

- (i) They originate from an establishment, which is not subject to national restriction measures for animal health reasons or because of the occurrence of abnormal mortalities with an undetermined cause, including the relevant listed diseases referred to in Annex I to Commission Delegated Regulation (EU) 2020/692 and emerging diseases.
- (ii) They have been obtained from animals which were not intended to be killed] under a national programme for the eradication of diseases, including the relevant listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 and emerging diseases.
- (iii) All introduction of species susceptible to the relevant diseases come from an area or compartment declared free of the diseases.
- (iv) Species susceptible to the relevant diseases are not vaccinated against the relevant diseases.

**III.2.3** Requirements for species susceptible to with Spring viremia of carp (SVC), Bacterial Kidney disease (BKD), infection with Infectious pancreatic necrosis virus (IPN), infection with Gyrodactylus salaris (GS), infection with Salmonid alphavirus (SAV) and <sup>(3)</sup>species susceptible to Koi herpes virus disease (KHV)

Originate from a country/territory, zone or compartment declared free from (SVC), (BKD), (IPN), (GS), (SAV) and (KHV) in accordance with relevant WOA Standard by the competent authority

- (i) They originate from an establishment which is not subject to national restriction measures for animal health reasons or because of the occurrence of abnormal mortalities with an undetermined cause, including the relevant listed diseases referred to in Annex I to Commission Delegated Regulation (EU) 2020/692 and emerging diseases;
- (ii) They have been obtained from animals which were not intended to be killed] under a national program for the eradication of diseases, including the relevant listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 and emerging diseases.
- (iii) All introduction of species susceptible to the relevant diseases come from an area or compartment declared free of the diseases.
- (iv) Species susceptible to the relevant diseases are not vaccinated against the relevant

#### III.2.4 Transport and labeling requirements:

- III.2.4.1 The aquaculture animals referred to above are placed under conditions, including the water quality, that do not alter their health status.
- III.2.4.2 the transport container or well boat prior to loading is clean and disinfected or previously unused.
- III.2.4.3 the consignment is identified by a legible label on the exterior of the container, or when transported by well boat, in the ship's manifest, with the relevant information referred to in Part I of this certificate, and the following statement: "(4)[Fish] (4)[Crustaceans] (4)[Molluscs] intended for human consumption in Israel".

#### NOTES

- To clarify:

- This document is valid only when **issued and signed** by the official competent authority of the exporting country.
- This document is addressed to the Israeli Ministry of Health and when presented, during the consignment inspection process and thereafter, this document will be considered as the property of the Ministry of Health.

Part I:

Box reference I.5:Place of origin: name and address of the **dispatch establishment**.

Box reference I.13:Identification of container: Where there is a **serial number** of the seal it has to be indicated.

Box reference I.12:Date of departure: Will be no sooner than the date of issuing the Health certificate.

Part II:

Box; Identification of commodities:

- Description of commodity: Specify the **appearance and main Characteristics** of commodity (ex: head on / head off / fillet / smoked / dried / salted/coated etc., as indicated on the invoice ).
- Nature of commodity: Specify whether **aquaculture** or **wild origin**
- Treatment type: Specify whether **live, chilled, frozen** or **processed**.
- Manufacturing plant: includes **factory vessel, freezer vessel, cold store, processing plant**.
- Harvesting date: Specify the **original date of harvesting**: specific date in chilled fish and at least, month and year in the case of non-chilled fish.
- Production date: Specify the **original date of production** (freezing, packaging, processing) .
- Best before: Specify the date which is printed on the Hebrew label (**optional**).
- Shipment No.: Specify the shipment number which is printed on the Hebrew labels.

Part III:

(1) Part III.1 of this certificate does not apply to countries with special public health certification requirements laid down in equivalence agreements or other European Union legislation.

(2) Part III.2 of this certificate does not apply to:

- (a) non-viable crustaceans, which means crustaceans no longer able to survive as living animals if returned to the environment from which they were obtained
- (b) fish which are slaughtered and eviscerated before dispatch
- (c) aquaculture animals and products thereof, which are placed on the market for human consumption without further processing, provided that they are packed in retail-sale packages which comply with the provisions for such packages in Regulation (EC) No 853/2004,
- (d) crustaceans destined for processing establishments authorised in accordance with Annex to commission Implementing Regulation (EU) 1882/2018, or for dispatch centers, purification centers or similar businesses which are equipped with an effluent treatment system inactivating the pathogens in question, or where the effluent is subject to other types of treatment reducing the risk of transmitting diseases to the natural waters to an acceptable level,

(e) crustaceans which are intended for further processing before human consumption without temporary storage at the place of processing and packed and labelled for that purpose in accordance with Regulation (EC) No 853/2004.

(3) Parts III.2.1 and III.2.2 of this certificate only apply to species susceptible to one or more of the diseases referred to in the title. Susceptible species are listed in Annex to commission implementing Regulation (EU) 1882/2018.

(4) Keep as appropriate.
