

Seminar on Uncertainty in Risk Assessment 17-18 November 2014

The seminar provides training on handling and dealing with uncertainty that is ubiquitous in all risk assessments in areas of food safety, animal and plant health, for risk assessors conducting quantitative risk assessments.

Please note that there is no fee for registration. You are welcome to distribute this invitation to your contacts.

Event information

Name of the seminar: Uncertainty in Risk Assessment

Dates: 17-18th November 2014

Registration deadline: 11st November 2014

Location and address: 17th November: Finnish Food Safety Authority Evira, lecture room Kalevi
Mustialankatu 3, 00790 Helsinki ([On the map](#))

18th November: Säätytalo
Snellmanninkatu 9-11, Helsinki ([On the map](#))

17th November:

08:00–08:25 Coffee

08:30–11:30 **Dr Peter Craig, University of Durham**
Fundamentals of quantification of uncertainty and variability
Simple quantification using normality or log-normality

11:30–12.30 Lunch (at your own cost)

12:30–15:30 **Dr Hauke Riesch, Brunel University London**
The sociology of risk and how risk is understood

14.00–14.15 Coffee

15:30–16.00 Closing of the day

18th November:

08:00-08:25 Coffee

08:30-11:30 **Dr Peter Craig, University of Durham**
Pushing beyond normality and log-normality
(Bayesian) statistical modelling of variability and uncertainty

11:30–12:00 Discussion and closing of the seminar

Please register not later than 11st November by the following link: [Webropol registration](#)
